

"Color Feast" Fashion Styling

THE MEDIUM IS THE MESSAGE
The native look is a gallery-worthy group perfect for the various venues of the Dia Art Foundation, where artist Isabel Lewis is making a name for herself. Her work is a blend of fashion and art, featuring a variety of styles and colors. The images are a mix of fashion photography and artistic illustrations, creating a vibrant and eclectic visual experience.

I G H &

Fashion Styling 2019

Project name: Color Feast

Inspired by one of the great artists in the world, Henri Matisse, this fashion styling project is a team work of 3 members. Through learnings from various angles such as stylists, photographers and talents, we were able to develop 2 strong looks with vibrant and contrast colors that present our visions of Henri Matisse's fantasy world.
