### **Concept**

The concept comes from the Chinese cheongsam buckle. Cheongsam buckle has a long history. It is developed from the "knot" of ancient times. "Knot" has the meaning of link, connection, and so on. Cheongsam buckle has very important meaning in the history of Chinese costume. It has not only functional significance but also decorative.

CO-KNOT-ION is not only the opening of the garment, but also the connection of different generations and ages.
